CONTENTS

Special Issue: Microwave Spectroscopy and Molecular Structure. A Collection of Invited Papers in Memorial Tribute to Professor Walter Gordy

Preface ..... *xi*
Walter Gordy: Some memories and impressions
J. Sheridan (Bangor, Gt. Britain) *1*
Conformational analysis of gaseous 1-oxa-spiro[2.5]octane by microwave spectroscopy and molecular mechanics calculations
H. Boulebnane, G. Roussy (Vandoeuvre-les-Nancy, France) and P. Iratcabal (Pau, France) *7*
Microwave spectrum and molecular structure of vinyl isocyanide: experimental and theoretical evaluation of conjugation
T.-A. Chang, M.D. Harmony (Lawrence, KS, U.S.A.) and S.W. Staley (Pittsburgh, PA, U.S.A.) *17*
Pure rotational spectra of 1-2- and 1,3-benzene-d_2 observed by microwave Fourier transform spectroscopy
M. Oldani, R. Widmer, G. Grassi and A. Bauder (Zurich, Switzerland) 31
Infrared kinetic spectroscopy of C_2H and C_2D
J.W. Stephens, W.-B. Yan, M.L. Richnow, H. Solka and R.F. Curl (Houston, TX, U.S.A.) 41
Microwave spectrum, barrier to internal rotation and dipole moment of methoxyallene
T. Ogata and K. Sugimoto (Shizuoka, Japan) 61
Photoemission and paramagnetic resonance spectroscopic studies of Ag-doped high T_c superconductors
J.T. Lue (Hsinchu, Taiwan) 69
Microwave spectrum of 4-fluorobenzaldehyde
S.R. González, R.M. Villamañán and J. Alonso (Valladolid, Spain) 79
Temperature dependence of the structure of the L-alanine radical: ESR study
K. Itoh (Osaka, Japan) and I. Miyagawa (Tuscaloosa, AL, U.S.A.) 85
Excited states of *trans* ethyl alcohol by microwave spectroscopy
Y. Sasada (Yokohama, Japan) 93
NMR chemical shifts and intramolecular van der Waals interactions: carbonyl and ether systems
D.B. Chesnut, D.W. Wright and B.A. Krizek (Durham, NC, U.S.A.) 99
Laser Stark spectroscopy of the $2\nu_6^2-\nu_6$ band of CH_3Br: determination of A_0, D_k^0 and H_k^0
J. Sakai and M. Katayama (Ichihara, Chiba, Japan) 113
The microwave spectrum, structure and dipole moment of cyclobutene ozonide (2,3,7-trioxabicyclo[2.2.1]heptane)
D.G. Borseth, P. Lorenčak, H.M. Badawi, K.W. Hillig II, R.L. Kuczkowski (Ann Arbor, MI, U.S.A.) and G.D. Mendenhall (Houghton, MI, U.S.A.) 125
Microwave spectrum and ^{14}N quadrupole coupling constants of carbazole
R.D. Suenram, F.J. Lovas, G.T. Fraser (Gaithersburg, MD, U.S.A.) and P.S. Marfey (Albany, NY, U.S.A.) 135
The hyperfine spectrum of KF
G. Paquette, A. Kotz, J. Cederberg, D. Nitz, A. Kolan, D. Olson, K. Gunderson, S. Lindaas and S. Wick (Northfield, MN, U.S.A.) 143
A variational calculation of the rotation–vibration energies for H_2O from ab initio data
P. Jensen (Giessen, F.R.G.) 149
Microwave measurements of an Ar–H_2S, Ar–HDS and Ar–D_2S complexes
R.E. Bumgarner, D.J. Pauley and S.G. Kukolich (Tucson, AZ, U.S.A.) 163
Heavy atom structure of the NCLT rotamer of allylamine
K.-H. Wiedenmann, I. Botskor, H.D. Rudolph (Ulm, F.R.G.) and O.L. Stiefvater (Bangor, Gt. Britain) 173

A Stark-modulated supersonic nozzle spectrometer for millimetre-wave spectroscopy of larger molecules of low volatility
R.D. Brown, J.G. Crofts, P.D. Godfrey, D. McNaughton and A.P. Pierlot (Clayton, Australia) 185
The microwave spectrum and structure of Z-prop-2-ynylideneamine, HC≡C–CH=NH
D. McNaughton, O.I. Osman and H.W. Kroto (Brighton, Gt. Britain) 195
Microwave spectra and structure of dichloroethenes
H. Takeo, M. Sugie and C. Matsumura (Tsukuba, Ibaraki, Japan) 205
Theoretical study of fluorinated amines
H.-G. Mack, D. Christen and H. Oberhammer (Tübingen, F.R.G.) 215
The microwave spectrum of *s-trans* vinyl isothiocyanate
W. Caminati (Bologna, Italy) 227
Development of millimeter- and submillimeter-wave spectroscopy and its application to isotopically-substituted nonpolar molecules, deuterated cubane and deuterated cyclobutanes
E. Hirota, Y. Endo, M. Fujitake (Okazaki, Japan), E.W. Della, P.E. Pigou (Bedford Park, S.A., Australia) and J.S. Chickos (Louis, MO, U.S.A.) 235
Electron spin resonance studies of the ovary of the rat
R.S. Andersen and J.C. Curtis (Worcester, MA, U.S.A.) 259
ESR spectroscopy of the sulphur-centered radicals derived from thiocytosine
K. Sanković, J.N. Herak and D. Krilov (Croatia, Yugoslavia) 277
Determination of the dipole moment of $HCCC^{15}N$ in excited vibrational states: an application of microwave Fourier transform spectroscopy in *K*-band
P. Wolf and H. Mäder (Kiel, F.R.G.) 287
The microwave spectrum of 5-methylthiazole: methyl internal rotation, ^{14}N nuclear quadrupole coupling and electric dipole moment
W. Jäger and H. Mäder (Kiel, F.R.G.) 295
Vibrational analysis of the emission and transient absorption bands of Br_2 in the region 2950–2410 Å
P. Venkateswarlu, Y.V. Rao (Huntsville, AL, U.S.A.) and D. Kanjilal (Kanpur, India) 307
Microwave spectrum of $F^{32}SN$ and $F^{34}SN$ in excited vibrational states: cubic force field of thiazyl fluoride
C. Degli Esposti, G. Cazzoli and P.G. Favero (Bologna, Italy) 327
The microwave and millimeter wave spectrum of difluoromethanimine, $F_2C{=}NH$: rotational and nuclear hyperfine structure analysis
K. Möller, M. Winnewisser (Giessen, F.R.G.), G. Pawelke and H. Bürger (Wuppertal, F.R.G.) 343
The microwave and millimeter wave spectrum of difluorocyanamide, F_2NCN: rotational and nuclear quadrupole hyperfine structure analysis
M. Winnewisser and F. Stroh (Giessen, F.R.G.) 357
Microwave spectra and conformation of *trans*-2-butenoic acid
J. Shibano, T. Matsumoto, T. Ishida, M. Onda, T. Sakaizumi, O. Ohashi and I. Yamaguchi (Tokyo, Japan) 377
The microwave spectrum, harmonic force field and structure of chlorodifluoromethane, CHF_2Cl
D.T. Cramb, Y. Bos, H.M. Jemson, M.C.L. Gerry (Vancouver, B.C., Canada) and C.J. Marsden (Parkville, Vic., Australia) 387
Millimeter-wave and submillimeter-wave spectroscopy of methyl fluoride
F.X. Brown, D. Dangoisse, J. Gadhi, G. Wlodarczark and J. Demaison (Villeneuve d'Ascq, France) 401
Internal rotation with a low threefold barrier; comparison between different basis functions
V.M. Stolwijk and B.P. van Eijck (Utrecht, The Netherlands) 409

Microwave spectrum, structure, quadrupole coupling constant and dipole moment of chlorotrifluorosilane
A.P. Cox, T.R. Gayton and C.A. Rego (Bristol, Gt. Britain) 419
Recent advances in pressure broadening: experiment and theory
F.C. de Lucia (Durham, NC, U.S.A.) and S. Green (New York, NY, U.S.A.) 435
Pressure broadening and lineshifts in the ν_2 band of NH_3
H.-J. Clar, R. Schnieder, G. Winnewisser and K.M.T. Yamada (Köln, F.R.G.) 447
The rotational spectrum of *cis*-HSSSH
D. Mauer, G. Winnewisser and K.M.T. Yamada (Köln, F.R.G.) 457
Molecular structure of $HOCO^+$
M. Bogey, C. Demuynck, J.L. Destombes and A. Krupnov (Villeneuve d'Ascq, France) 465
Spectra and structure of small ring compounds. LIII. Rotational and vibrational spectra and conformational stability of cyclobutylcarboxylic acid chloride
J.R. Durig, H.M. Badawi, H.D. Bist and T.S. Little (Columbia, SC, U.S.A.) 475

Short Communication
Quadrupole hyperfine structure in the rotational spectrum of quinuclidine
K. Vorman and H. Dreizler (Kiel, F.R.G.) 489

Author Index 493
Subject Index 495
